

SINGLE

EDUCATIONAL PANELS

1 Safe pipe plugs made of injection molded polyamide.

2 Solid construction made of stainless steel AISI 304 totally resistant to weather conditions.

3 Plate and rope connectors made of injection molded polyamide.

Milled educational board made of 15mm HDPE plate. Allows to learn basics of math.

Milled educational board, made of 15mm HDPE plate. Allows to learn basic English words.

Rotary module, made of 13mm HPL plates embedded on the HDPE board. Stimulates the senses and supports the development of child's motor skills.

Milled educational board made of 15 mm thick HDPE board with a movable rotating element. Stimulates senses of sight, touch and focuses attention.

Rotary module, made of 13mm HPL plates embedded on the HDPE board. Stimulates the senses and supports the development of child's motor skills.

Rotary module, which allows to move the ball in the maze, made of HDPE plate, safe polycarbonate and stainless steel.

Milled educational board made of 15mm HDPE plate. Stimulates children senses.

Hemispheric window with a diameter of 400 mm. Material: heat - formed polycarbonate 5 mm thick, resistant to vandalism.

Counter module made of a colorful 15 mm HDPE plate.

The windows are made of safe polycarbonate 8 mm thick.

Milled educational board made of 15mm HDPE plate. Stimulates the sense of sight and teaches fast decision making.

Milled educational board made of 15mm HDPE plate. Stimulates children senses.

SINGLE

EDUCATIONAL PANELS

Milled educational board made of HDPE board with a thickness of 15 mm. It focuses attention and enables learning the basics of geography.

Milled educational board made of 15mm HDPE plate. Allows to learn basics of sign language.

Milled educational board made of 15mm HDPE plate. Allows to learn basics of Braille's alphabet.

Milled educational board made of 15 mm thick HDPE board with a moving parts. Stimulates senses of sight, touch and focuses attention.

Milled educational board made of 15mm HDPE plate with moving parts made of injection molded polyamide.

Milled educational board made of 15 mm thick HDPE board. Stimulates senses of sight, touch and focuses attention.

Milled educational board made of 15mm HDPE plate. Stimulates children senses.

Xylophone module, made of 13mm HPL plate and anodized aluminium. Allows you to play C-major scale.

The TIC TAC TOE game is made of polyethylene rotationally molded with symbols on the form. Esthetic finishing without sharp edges. The barrel is 16 cm height and 15,5 cm wide enriched with additional symbols like sun and moon, making the fun even better.

Milled educational board made of 15 mm HDPE plate with playing module.

Milled educational board made of 15 mm HDPE plate with playing module.

Milled educational board made of 15 mm thick HDPE board with a moving parts. Stimulates senses of sight, touch and focuses attention.

Milled educational board, made of 15mm HDPE plate. Allows to learn basic English words.

Milled educational board made of 15mm HDPE plate. Stimulates children senses.
