

URBANIQ

Solid construction made of black steel S235JR, cleaned in the sandblasting process. Protected against corrosion by galvanizing and powder coating with polyester paint QUALICOAT attested. 1 – steel, 2 – sandblasting, 3 – iron phosphatizing, 4 – zinc base, 5 – polyester powder paint.

Plates of the walls made of colourful triple layered 15 mm HDPE polyethylene, in the highest quality, totally damp-proof and resistant to UV.

Plates of the walls and platforms made of colourful 13 mm HPL (black plates made of 8 mm HPL), in the highest quality, totally damp-proof and resistant to UV.

Anti-slip 10 mm HPL platform plate with a very high resistance to weather conditions and attrition.

Steel elements hot-dip galvanized.

Information Board with print-out on UV-resistant foil, glued to a hot dip galvanized metal sheet.

Connecting elements like screws, nuts, washers made of stainless steel. Vandal-proof screw plugs made of injection molded polyamide.

System of connectors and clamps made of strong aluminum alloy. Aluminum is secured by the process of electrophoresis and powder coating with polyester paint UV resistant and QUALICOAT attested.

Soft conifer wood 90 x 90 mm, coreless, glued in layers with polyurethane glues, totally resistant to water. Wood posts processed in three-phased impregnation process.

Wooden posts anchored to the ground with powder galvanized and powder coated steel anchors.

Perforated steel sheet galvanized and powder coated with polyester paint QUALICOAT attested.

Safe post covers made of injection molded polyamide.
